

Climate Cure Capital Corporation a StereoVision Wholly Owned Subsidiary Invests 64,000 Tons of Carbon Offset Credits in Earthx Dallas, Texas

Las Vegas 02/10/20 -OTCMarkets- Stereo Vision Entertainment, Inc. (OTC:SVSN) announced today that their wholly owned subsidiary Climate Cure Capital Corporation has invested 64,000 tons of its carbon offset credits in Earthx, Dallas. (<http://earthx.org>) Earthx Dallas is the world's largest exposition forum showcasing initiatives, research, innovations, and corporate practices serving the environment.

"Trammell Crow, Earthx Founder and driving force is who inspired StereoVision to change our corporate practices and enter the climate change mitigation industry," stated StereoVision CEO Jack Honour. "We've done this by launching the StereoVision wholly owned subsidiary Eco Allies Inc <http://ecoallies.biz> for a planned SEC REIT registration to acquire companies in the climate change mitigation industry, and by acquiring Climate Cure Capital Corporation (CCCC) <http://climatecurecapital.com> to address a variety of climate change issues. StereoVision intends to be a leader in the climate change mitigation industry helping to heal the planet while growing shareholder value."

"Currently CCCC is surfacing opportunities the Texas, California, and Florida farming communities where our proprietary Paulownia SuperGreenTrees best thrive," Honour continued. We look to continue deploying our 5,000,000 seeds for our SuperGreenTrees in our efforts to contribute to the reduction of methane being released into the atmosphere and be poised to capitalize on the new surge of interest and financial support for the planting of trees, bringing another added value to the StereoVision shareholders." <https://www.npr.org/2020/01/22/798644791/president-trump-climate-change-and-1-trillion-trees>

"While CCCC is engaging with farming communities for planting our Paulownia SuperGreenTrees, Eco Allies is surfacing opportunities with environmentally-focused companies for inclusion in Eco Allies planned REIT filing," Honour added." CCCC and Eco Allies will be attending Earthx Dallas in April with StereoVision Board of Directors member James Gaspards company BiocharNow. <http://biocharnow.com>. We believe BioChar is the next gold rush and there is no better product to make biochar with, considering the soil mitigation and offset credits earning potential, than our Paulownia SuperGreenTrees."

Stereo Vision Entertainment, Inc. <http://stereovision.com> is a Nevada public company (OTC:SVSN) utilizing its award-winning team of industry professionals in the areas of 1) climate change mitigation through its subsidiary, Climate Cure Capital Corporation <http://climatecurecapital.com> 2) producing multi-media content for climate and company awareness by its wholly-owned subsidiary, the 9-time Emmy Award-winning REZN8 <http://rezn8.com>. 3) exploiting StereoVisions film assets, and 4) the wholly-owned subsidiary Eco Allies, Inc. <http://ecoallies.biz> whose planned SEC registered IPO to become a NYSE listed REIT is to purchase land and greenhouses for farming hemp and Climate Cure's proprietary HDF-SuperGreenTrees in support of the Company's climate change mitigation operations.
